

Year 6 Homework Challenge

Pick one or more of these challenges to complete and hand in by Monday 20th July.
We look forward to seeing what you have chosen to make/do!

Can you create your own game on scratch with different variables.

In Maths we have been looking at how to manage money.

A cinema ticket costs £8.50—how much would 4 tickets cost? How much would it cost for a class group of 30?

★ You have managed to get a 20% discount for the class. What is the cost now?

Design a new poster to advertise the Year 6 Moana play.

In Geography we are using maps of our local area to see what activities are provided for children. What activities are not provided for locally- what would you like to see? Draw/describe/write what you would like to see in the Allestree/Derby area.

This term our topic in Science is Electricity.

We are looking at how the number & voltage of cells affects the brightness of a bulb or the volume of a buzzer. Create a quiz with five questions about electricity and voltage for a family member to answer.

Electricity <i>Effective resources for learning</i> Mr Nimble's Notes Year 4 Science ★	Question: What does this electrical symbol represent?
Question: What is another name for a battery?	Question: What is the path of electricity called?
Question: What is the name of a material that DOES allow electricity to pass through it easily?	Question: What is the name of a material that DOES NOT allow electricity to pass through it easily?

Imagine you are adding a new scene to the play; write 4–5 sentences describing what happens.

Remember there is also weekly spelling practise sheets and you have access to Times Table Rockstars. Also try and read at home 3 times a week- Reading Records will be checked on a Friday.

Make a model of Te Fiti using clay, playdough, or recycled materials.
